

Dear Lynn,

Jeff and I just wanted to take this time to thank you. As you know Jeff is a union carpenter and very hard on builders. After having our first daughter we found the need for a new home. I have to tell you we looked at EVERY builder in the northwest suburbs. Nobody was good enough for my husband. Frustrated, we decided to build and contract our own home. I did not want to do this because it would take to long and way too many headaches. I knew there had to be a least one builder that would measure up to my husbands standards. After searching more and more I was speaking to a friend of a friend who had a home built in Hawthorne Woods. She told me that the builder was Kenneth James out of Northbrook and had only great things to say about them. I went on line and found you. Problem was now was time to convince my husband. From the moment we walked into your office to time we closed on our home; our experience with Kenneth James has been nothing less than a pleasure. You helped me decide on the model that would suit us. Don August helped us choose the right lot and Becky at the design center walked me through every last detail. Lynn, I really want to just thank you , I LOVE my new home and I love our subdivision. I will and do recommend Kenneth James to anybody I care about.
